

Aria Buffer Tube & Ribbon Fan-Out Kits

Components

Overview

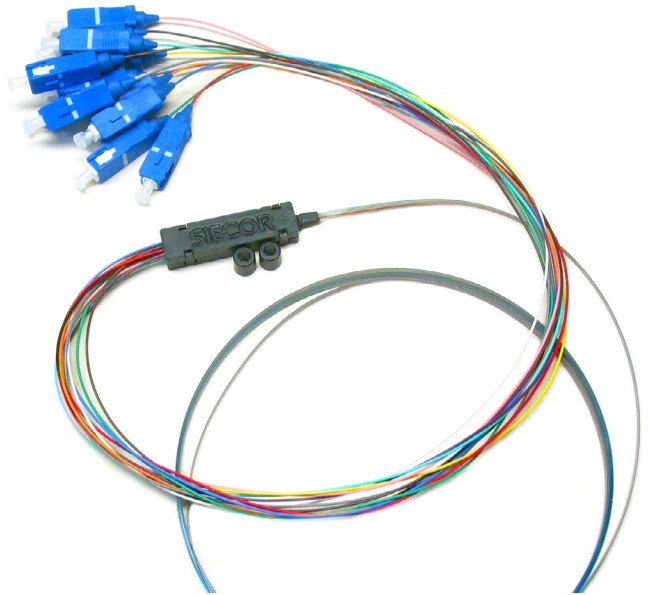

ARIA Fan-Out Kits are designed for a simple and easy breakout from standard Buffer tubes or Ribbon cables.

ARIA Fan-Out Kits can be pre-configured for 6 and 12 fiber applications with 36 inches of 900µm Hytrel tubing in the appropriate industry color scheme.

The black furcation unit is created from glass reinforced ABS.

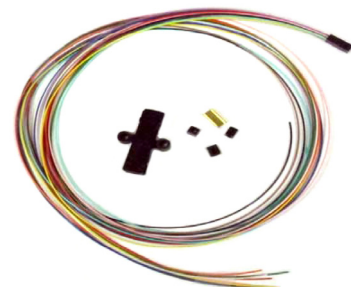

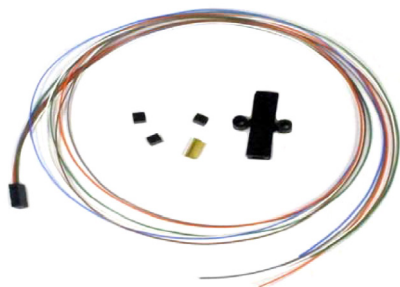

ARIA Fan-Out kits have a unique snap together design that offers the ability to unsnap the unit for re-entry if necessary.

Each kit comes with the adapters that accommodate round cable configurations, such as Buffer tubes, and Ribbon cables. This cost saving feature allows you to cover all your application possibilities with just a single style, which is simpler and more cost effective.

Specifications

Parameter	Value
Body Dimensions (HxWxL) (mm)	8 x 12 x 44
Entire Unit Dimensions (HxWxL) (mm)	8 x 30 x 44
Mounting hole center to center	22 mm
Length of Tubing	36"
Tubing OD	900µm ± 50µm
Tubing ID	450µm ± 50µm
