

### FullAXS IP67 Rated Cable Assemblies

FullAXS IP67 Rated Cable Assemblies are weatherproof cable assemblies designed for remote radio units.

These assemblies provide robust Fiber to the Antenna (FTTA) connectivity.

FullAXS assemblies are rodent resistant and feature bayonet locking style LC connectors for FTFA applications.

Tethered cap and flexible boot eases installation constraints.

Available in 5mm or 7mm cable jacket sizes.

### FullAXS IP67 Rated Cable Assemblies

- Meets IP67 Standards
- No tools required
- Bayonet style locking mechanism
- Designed for harsh environment applications
- 5mm and 7mm jacket sizes available
- Rodent resistant
