

Connector Cleaning Products

Dust and contaminant free connectors and adapters are critical to error free operation. Due to the sensitivity of fiber optic systems, contamination can occur at many stages of its transportation and implementation. Proper inspection, cleaning, and installation of fiber optic connectors and adapters is of paramount importance to installing and maintaining an operational fiber optic network.

Particles of dust, oil from skin, and other contaminants trapped in the connection between two pieces of fiber can cause attenuation due to back reflections, air gaps, and misalignment. It can also damage the glass surface of the connector.

NTT-AT Cleaning Kit

The NTT-AT Cleaning Kit is a dry cloth cleaning system that provides excellent cleaning performance for single-fiber and multi-fiber connectors. ARIA also offers NTT-ME Clestop Optical Connector Cleaner products.

Specifications

Dispenser Material: ABS Resin
Dimensions: 83 x 127 x 48 mm
Weight: 150 g
Cleanings: 400 per reel

Applications

The NTT Cleaning Kit accommodates multi-fiber and single-fiber connectors. The kit can be configured to clean male and female MT, male and female MT-RJ, 1.25mm (LC, MU), or 2.5mm (SC, FC) connectors.

Connector Cleaning Tool

The ARIA Connector Cleaning Tool is a mechanical cleaning tool designed to clean mated and unmated connectors.

A simple pushing motion engages the tool with an audible click. Unit permits over 525+ engagements. Dry cleaning strand eliminates the need for solvents. Crush resistant to over 250N and impact resistant to survive drops over 1.5M.

Connector Cleaning Products

In a study conducted by NTT-Advanced Technology, 80% of network owners (blue) and 98% of installers (gray) reported that issues with connector cleanliness and contamination were the greatest cause of network failure.

Connector Cleaning Products

NTT-ME Cletop Products

Product Name	Part Number	Description
Cletop Type-A Cassette	CLRSL	1 pc (2-slotted window)
Cletop Type-B Cassette	CLROP	1 pc (Open window)
Cletop MPO Cassette	CLRMP	1 pc (Open MPO window)
Cletop MT-RJ Cassette	CLRMT	1 pc (Open MT-RJ window)
Cletop S Type-A Cassette	CLRSA	1 pc (2-slotted window)
Cletop S Type-B Cassette	CLRSB	1 pc (Open window)
Cletop Replacement Reel	CLETR	1 case (6 reels)
Cletop Stick 1.25mm	CLST12	1 case (200 pcs)
Cletop Stick 2.50mm	CLST25	1 case (200 pcs)

NTT-AT Reel Cleaner Products

Product Name	Part Number	Description
Reel Cleaner Cassette -SL	FCRSL	1 pc (2-slotted window)
Reel Cleaner Cassette -OP	FCROP	1 pc (Open window)
Reel Cleaner Cassette -MPO	FCRMP	1 pc (Open MPO window)
Reel Cleaner Cassette -MT-RJ	FCRMT	1 pc (Open MT-RJ window)
Replacement Reel	FCRRF	1 case (6 reels)
Card Cleaner	FCRWH	1 pc (with 10 sheets)
Card Cleaner Refill	FCCRf	1 box (10 pack=100 sheets)
Stick Cleaner 1.25mm	FCST12	1 case (200 pcs)
Stick Cleaner 2.50mm	FCST25	1 case (200 pcs)

Connector Cleaning Products

Connector Cleaning Tools

Connector Cleaning Tools are designed to clean SC, ST, FC, E2000, LC, MU, MTP® and generic MPO connectors.

Connector Cleaning Tools clean unmated cable assemblies and connectors loaded in a bulkhead adapter.

The advanced “push” style connector cleaner is quick and efficient at removing contaminants and keeping your network infrastructure running clean.

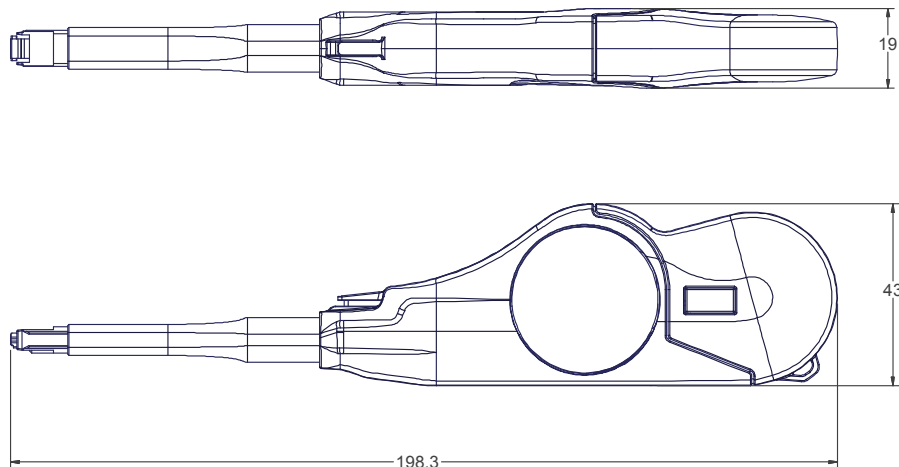

Specifications

- Unit performs over 525 cleanings.
- MPO/MTP® Connector Cleaning Tool cleans male (with guide pins) and female MT ferrules
- MPO/MTP® Connector Cleaning Tool cleans multimode (flat) and singlemode (8° angled) MT ferrules
- RoHS compliant
