

SPLWM Series Splice Wallmount Enclosures

These compact fiber splice enclosures are ideal for wall mounting indoors.

The rear-hinged, 16 gauge steel, pad lockable door provides quick access to the enclosure interior.

The riser cable entrance slot accommodates most OSP cables (Outer Diameters up to .71") and makes it easy to mount cable where riser cables already exist.

Slack storage space behind the splice trays provides simple cable re-entry and access.

Features

- Spacious splice only wallmount enclosure allows for ample cable slack
- Multiple cable entry ports support a wide variety of cable diameters
- Easy to access and re-enter the enclosure
- Attached padlock hasp and lock kit option provides enhanced security
